Chrissie Larchéz is Region 2 Prevention Representative for North Arkansas Partnership for Health and Education (NAPHE) and North Arkansas College. She started her work in Prevention as a volunteer for the Boone County Meth Coalition in 2005 and has been involved with many coalitions and school prevention programs.

Chrissie is a Certified Alcohol and Drug Counselor and has worked in the substance abuse field since 2000. Previously, she was the Youth Program Coordinator for Drug Free Communities from February 2016 to March 2020, where she recruited, trained and facilitated the very active Ignite Youth Prevention Coalition in Boone County.

The Ignite group worked on community prevention projects to make positive changes in their school, community and even their state. In their efforts to make positive changes, Ignite earned four state awards and two community awards. Ignite convinced Harrison and Alpena's City Council to adopt the T21 bill in the community and later Ignite was instrumental in helping to passing this ordinance in the state of Arkansas and was invited to the capitol to witness the governor sign this bill into law.

Chrissie is working to become a Certified Prevention Specialist and is looking forward to continuing her passion in her new role in the prevention field.
